Logo:

PRESSMPLS

The PRESS APP is a platform for artists and businesses to submit their logos and designs for printing on garments such as T-shirts, Hoodies, Bags and more. They will see a Mockup of their Custom Garments in real time and get instant quotes. The PRESS APP will also stand as a marketplace for supporters to support artists and businesses, and for businesses to supply uniforms for their employees.

Team Agreements:

Frontend: Major

Backend/Coding: Anderson

Database: Ahmed, Christa

We have all agreed to be held accountable for completing tasks in the assigned roles and do them to the best of our ability for the duration of the capstone project.
